SUMMARY

An experienced member of a mortgage team looking to transition into the tech industry as a self-taught programmer. My strengths in leadership and attention to detail will be beneficial to future roles in the tech field.

EXPERIENCE

MORTGAGE PROCESSOR/PROCESSING MANAGER

Heartland Home Mortgage   **November 2021 - Present**

· Look for and remove redundancies and inefficiencies in department processes, such as automating a weekly report that coworkers manually entered previously.
· Keep coworkers up-to-date on guidelines for our industry.
· Lead meetings and trainings both department-wide and company-wide.
· Collaborate with a variety of personality types within my team to create cohesion.

MORTGAGE PROCESSOR

Heartland Home Mortgage   **December 2019 - November 2021**

· Review mortgage application and borrower documentation for accuracy.
· Problem solve with sales team members on applications with significant obstacles.
· Work with outside companies on documentation pertaining to mortgage applications.

PROJECTS

Note Keeper App

June 2023 -July 2023
· Created a clone of a note-taking app with add, save, and remove note features.
· Utilized React and React's useState for note handling.

Weather App

May 2023 - May 2023
· A basic weather application that utilizes the OpenWeather API to acquire weather data based on user input.
· Written using Express and Node.js.

Google Authenticator App

May 2023 - May 2023
· Created a Google Authenticator App, which allowed users to log in via Google's authentication access, using OAuth2.0, and Google's authentication API's.
· Written utilizing Mongoose, Express, Node.js, as well as a number of other dependencies.
